## The DA VINCI CODE

Valletta, the capital city of Malta, is also known as the home of the Knights of Malta and now, the location of the Golden Knights Cross, a relic that gives the ultimate mystic power to whoever has ownership of it.

The tentacles of the Priory of Sion are far stretched around the globe and Malta is no exception. You must solve the mystery before the agents of the priory

ultimately solve and destroy the hidden message themselves.

The quest will start with a briefing from the local police inspector who will ask for your help to solve a chain of murders that have been occurring locally and are related to the mystic relic..

You will be presented with a booklet that will have to be deciphered to help solve the mystery of the lost relic. Within this work book there will be clues as how to get to the secret locations and what to look for in order to solve the riddle. Through this experience you will have the opportunity to visit cathedrals, places of interest, art museums and architectural or historical buildings.
